# 2022 COMMITTEES

## ABOUT our COMMITTEES

Each committee has an appointed chair and vice-chair that organize programs and events. Participation on our committees is open to all of our members, however, some committees (*listed on the back of this brochure*) have members that are by appointment only. Committees typically meet once a month.

### Technology Committee (Part of MLS)

Analyze past, current, and projected market trends to ensure the MLS remain competitive in the marketplace. The committee would review, test, and present to the MLS BOD their recommendations for improving technology and programs offered.

### Realtor®/Builder Committee

The goal of this committee is to form stronger relationships with our local builders and service providers. Learn more about the building process, builder expectations, and your responsibilities as an agent.

### YPN - Young Professionals Network

Responsible for encouraging and promoting young members to excel in their careers by pursuing leadership roles in their local, state and national associations. The YPN Committee also fosters opportunities to become active in public policy discussions, advocates for the real estate industry and provide opportunities for community service and networking.

### Community Outreach Committee

If you care about your community this is the committee for you. Doing valuable work within the community to make our involvement as REALTORS® be felt in each community (county) we serve. Enhancing the public image of the REALTOR®.

### Fair Housing Committee

This committee works to promote educational opportunities to our members. We promote the value of home ownership and work to increase housing opportunities for everyone.

### Governmental Affairs Committee

Garner relationships between our association and our local, state and national political leaders to impact the REALTORS® profession protecting housing and private property rights.

### Professional Development

This committee works to bring relevant classes to our membership. You will be asked to identify industry trends and issues that will allow courses to be created and/or speakers to come to HCAR to address the topic.

## JOIN A COMMITTEE

The High Country Association of Realtors® grows as a result of new member engagement. By volunteering your time and effort, you can gain insight, make community connections, network with industry professionals, and take pride in your accomplishments.
